

Release Notes

Toska SQL Tuning Expert Pro for Oracle® 1.1.0

Release Notes

May 2018

About Toska SQL Tuning Expert Pro for Oracle®

Toska SQL Tuning Expert Pro (TSE Pro™) for Oracle® is an automatic SQL tuning product that uses AI technology to tune your SQL statements by applying Oracle Hints combinations to improve your SQL statements' performance *WITHOUT* touching your source code anytime and anywhere. It also provides an intelligent cost-aware Indexes Advisor to help users to review and recommend indexes for a given SQL workload, The Indexes Advisor is able to find the best recommendation of indexes within a certain quota or time with the best impact to the given SQL workload.

Trial Version limitations

1. The TSE Pro™ trial version provides up to 30 automatic SQL alternatives to solve most common SQL performance problems before you purchase the production version (The production version does not have this limitation).
2. The TSE Pro™ trial version advises indexes based on SQL workload for at most 100 SQLs (Again, the production version does not have this limitation).

Supported Oracle® versions

Oracle® 11.2 or higher

Known Issues

1. Migration of SQL Patches or Plan Baselines from 12C to 11G is not allowed.
