New Features

SQL Tuning Expert for MySQL5 2.3.0

SQL Tuning Expert 2.3.0 a major release which includes following new features.

Tune SQL

It is a very powerful tool to tune your SQL statements in a fully automatic manner without the need of user's expertise involvement. Our powerful A.I. SQL Rewrite Engine to help users to rewrite their problematic SQL statements to potential better semantic equivalent SQL alternatives. User can select "Rewrite + Hints", "Rewrite Only" or "Hints Only" method in "Tuning Method" dropdown menu to tell our A.I. Rewrite Engine which tuning method will be used to tune a given SQL.
